Euclid NASA Science Center at IPAC

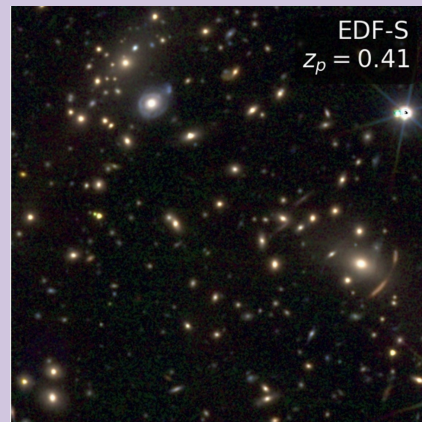

Euclid at AAS #248

[AAS #248 meeting](#) will be in Pasadena, CA, June 14-18, 2026. Sign up now for the ENSCI workshop, "Euclid Data in the Cloud: Access, Analysis, and Science Opportunities" (Sunday, June 14, 2026, 10:00 AM - 11:30 AM). ENSCI's special session, "The Euclid Mission: Science Highlights and Preparation for DataRelease 1" (Thursday, June 18, 2026, 2:00 PM - 3:30 PM), will accept abstract submission for contributed talks and posters until April 20.

IRSA Tutorial on Euclid Galaxy Clusters Analysis

NASA's IRSA archive team has released a new Jupyter notebook on Euclid galaxy clusters analysis. [This tutorial](#) explores galaxy clusters in the Euclid Q1 merged multi-wavelength mosaic (MER) image data to demonstrate cluster detection and validation techniques.

Hubble, Euclid, & Subaru Uncover Dark Galaxy

Hubble, Euclid, and Subaru have jointly uncovered a [dark galaxy](#), evidenced by a faint, diffuse glow surrounding star clusters.
